

Brother Grand Secretary,

I wanted to make you aware of the effort Star Lodge is making towards the quillow project in conjunction with Janet Zahrt.

The Brothers of Star Lodge support the project and my wife Ann has taken this to another level. She has been in dialog with Janet Zahrt and when we delivered the first 5, Janet provided more fabric and we have another 10 completed and look to have 20 to present to Janet on March 7th in Des Moines. The women of the institution have indicated they can complete 25 quillows per week. We just need to obtain more fabric and we are looking to publish an article about the project and see how this can be done. Below are copies of email communications that is asking permission from the institution for completing an article.

I will be in contact again if approved for direction from Grand Lodge on how best to proceed on publishing this article across the state.

This story and the charity this project has provided is many. This project will provide benefit for the patients and to the women of the institution who are working toward giving back to the community.

Fraternally,
Darrell Fremont W.M.
Star Lodge #115 A.F.& A.M.
